June 2018 – Present

### Senior Fullstack Developer

*Outsourced Quality Assured Services Inc. (Delta Logic AG)*

- On-going development of software for Swiss Judiciary system.
- Doing complex stories which requires FE and BE work to increase the performance and the usability.
- Improve the interaction between FE and BE and make suggestion how to diminish the coupling.
- Took responsibility to always check the sprint cross team in the FE area to ensure that there are no stories impacting each other.
- Took responsibility that always the latest Angular version is used and help less experienced developers understand the new features and how to use them.
- Took responsibility to always check the test coverage especially Frontend.
- Help to improve the performance and the purposefulness of the tests by implementing the needed tests and make suggestions for other tools which can help us achieve the requirements.
- Investigate and support fixing Gitlab pipeline failures.
- Raises own ideas to improve the usability, security, performance etc. and write the stories.
- Participates on peer code-reviews.
- Participates in scrum meetings.
- Participates in design and architectural decisions.
- Mentoring of less experienced developers.
